EDUCATION

Kalinga Institute of Industrial Technology

Bachelor of Technology in Computer Science

Bhubaneswar, Odisha

Aug. 2023 – May 2027

Salt Lake School

Primary to Higher Secondary

Salt Lake, CA Block, Kolkata, West Bengal

Aug. 2008 – March 2023

PROJECTS

Customer Operations Analytics Dashboard | *Python, Pandas, Jupyter, Streamlit*

Nov. 2025 – Dec. 2025

- Built an end-to-end customer operations analytics pipeline to process and analyze 20K+ customer support tickets for operational insights and KPI reporting.
- Cleaned, transformed, and structured raw support data into analysis-ready datasets.
- Analyzed ticket priority, queue distribution, issue types, and customer segments.
- Created standardized datasets for dashboarding.
- Converted unstructured ticket data into insights.
- Designed KPI-ready data structure.

Sales Performance and Incentive Analytics | *Python, Pandas, SQL, Power BI, Excel*

Feb. 2026 – Mar. 2026

- Built a sales analytics system for revenue and performance insights.
- Identified high-performing segments.
- Designed KPI metrics.
- Processed data using SQL and Python.
- Enabled dashboard reporting.
- Generated insights for optimization.

Process Optimization and Workflow Analytics | *Python, Pandas, SQL, Power BI*

Jan. 2026 – Present

- Identified workflow bottlenecks.
- Optimized processes using data.
- Built analytics datasets.
- Standardized workflow data.
- Created performance dashboards.
- Improved resource allocation.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Oracle), Shell Script, YAML

Frameworks: Pandas, NumPy, Streamlit, Power BI, Jupyter Notebook, Git

Tools: Linux, Git, Vim, VS Code, Jupyter, Excel

Libraries: pandas, NumPy, Matplotlib, Scikit-learn
